

HIGH-SPEED DATA TECHNOLOGY

STANDARDIZED AND FAST AVAILABILITY

ODU's qualified cable assemblies for data technology enable the use of standard transmission protocols such as Ethernet/IP®, SPE, USB®, HDMI® and DisplayPort® even under harsh conditions such as vibration, contamination or humidity.

The contact arrangement of an ODU data transmission connector differs from a standard data transmission connector due to the robust ODU specific design. However, the ODU design meets the electrical specifications of the respective standard data transmission protocol.

FEATURES

- + Tested quality of the complete solution (data rates, attenuation, signal integrity, etc.)
- + Fast availability
- + Available in different lengths (within the frame of technical possibilities)
- + Without minimum purchase quantity
- + Simulations and inspections already in the early development phase
- + Everything from a single source
