Customer Information: EU Packaging and Packaging Waste Regulation (PPWR) – Implementation at ODU

Dear Valued Customers,

ODU assumes responsibility, as a producer and placer on the market of packaging within the meaning of the EU Packaging Regulation (PPWR), for compliance with the applicable legal requirements.

The new European Packaging Regulation – Regulation (EU) 2025/40 ("Packaging and Packaging Waste Regulation", PPWR) – applies from 12 August 2026.

We hereby confirm that we follow the provisions of the aforementioned Regulation and take them into account within the framework of the applicable requirements.

We place great importance on transparency and on providing relevant packaging information to our customers. To ensure the availability of the required information, we maintain close and continuous communication with our packaging suppliers. On this basis, we work to maintain up-to-date packaging data, prepare declarations of conformity properly, and take future legislative developments into account at an early stage.

Should you have any questions, require support, or be unable to clearly identify one of our packaging types, we will be pleased to assist you at any time. Please do not hesitate to contact us.

Kind regards

Packaging Management
